DOODLE & POLL EVERYWHERE

The benefits

- ➔ Doodle is a free scheduling tool that helps you manage people’s availability (e.g. Which date(s) are most popular to hold your AGM). Users do not need to register to reply. It takes less than five minutes to set an event up
- ➔ Event organisers can set up a selection of days/times for users to say yes or no, and can easily collate opinions on one page
- ➔ The tool can also be used to create a free poll to distribute to users

The screenshot shows a 'Table view' of a Doodle poll. The poll is for 'JANUARY 2013' and has 8 participants. The dates available for selection are Saturday 5th, Saturday 12th, Saturday 19th, and Saturday 26th. Each cell in the table indicates a participant's response: a green checkmark for 'Yes' and a red box for 'No'. At the bottom, the number of 'Yes' responses for each date is shown: 3 for Sat 5, 6 for Sat 12, 6 for Sat 19, and 4 for Sat 26.

- ➔ Free for up to 25 responses – take a quick straw poll from your clubs and captains
- ➔ Users ask their audience a question with the Poll Everywhere app, and the audience answers in real time using text message, Twitter, or web browsers
- ➔ You could ask each team in your league to ask the same question to their players and collate the answers to independently understand their opinions
