TWITTER POLL

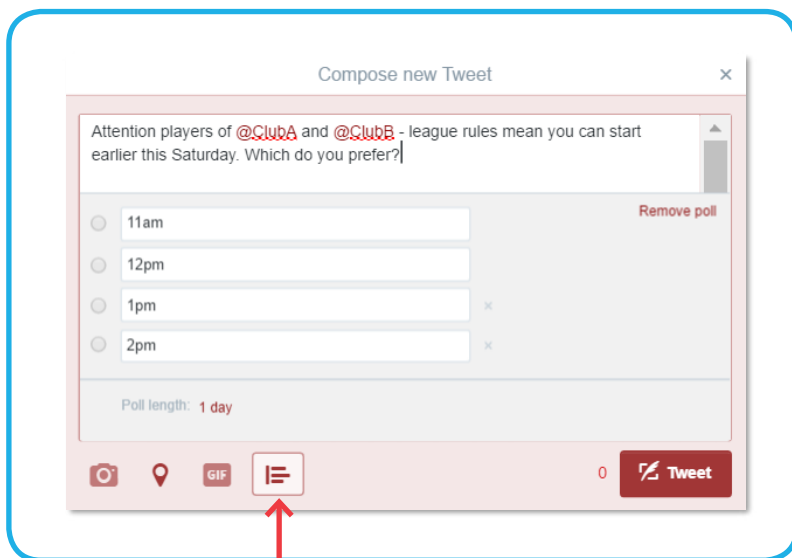

How to set up

Twitter has recently made it very simple to run polls within tweets, with up to 4 options per question. These are a great way to quickly gather the views of clubs and players to inform decision making. Plan to run a series of polls throughout the season.

1. To begin, simply write your tweet as you would do normally, then follow these steps. You won't be able to see who voted for which option but you will get a numerical count of votes on your poll
2. The default poll set up is to have 2 options, you can use up to 4 by clicking the 'add a choice button'

Click the poll icon to add your poll. All polls count as 24 characters, so it's important to remember this when writing your message.

GETTING STARTED

3. Add in the options you want to display in the poll
4. You can change the duration for which the poll is live by clicking the '1 day' button at the bottom
5. The minimum duration for a poll is 5 minutes and the maximum is 7 days
6. Once you've decided on a duration, simply hit 'Tweet' as you would normally and the poll will go live
7. You can view the results by clicking on the tweet once the poll has expired. The results will be displayed, visible to the public, where the poll stood
